Program Customization

All programs can be customized to reflect the client's unique work culture and business.

TMG will customize workshops to include specific case studies and interactive examples reflecting your industry, to incorporate your organization's own policies and procedures, or to add your organization's specific forms and processes.

- *TMG's goal for every engagement is to maximize the application of learning to the job.*
- *When learners apply what they've learned and increase their job performance and effectiveness, accomplished our commitment to you, our client.*

Some designs utilize assessment tools. These are priced according to market price at the time of delivery.

Learning Methodology

- *Self-assessments to help participants understand themselves and others in a specific environment.*
- *Interactive class discussion for peer learning.*
- *Experiential exercise and case studies to assist in workplace application.*
- *Videos to assist in seeing the appropriate workplace behavior.*

These learning tools and techniques enable participants to appreciate individual differences and to develop effective strategies for leading, managing and working with each other. At the end of every program, participants apply the learning through creating a personal development action plan

Training and Development Strategies

As part of this process, TMG helps clients with a wide range of training issues:

- *Align the organization with new training strategies.*
- *Design a training "road-map" in conjunction with existing organization programs, such as Performance Management, Compensation & Rewards.*
- *Clarify training accountability to meet organizational goals, move the organization forward, and prepare for future organizational leadership.*
